### Made to measure

A rug is an endlessly versatile piece. Use it to anchor furniture and pull a look together, as well as to create zones and add texture. Struggling to find the right one? A bespoke design service allows you to create a rug that's all your own, adding details such as a different coloured border – and it can be less costly than going for a top designer rug.

**Wool Pebble Birdling rug** with Jot Biscotti border, from £404, Alternative Flooring

### Follow a pattern

With so many great patterns, colours and effects available, vinyl flooring offers a quick and affordable way to completely transform a room. Waterproof and easy to clean, it's ideal for bathrooms – and kitchens inhabited by messy cooks.

**Eclipse Emelia vinyl flooring**, £22.99/sq m, House Beautiful Collection at Carpetright ▶
