IDEAS TO STEAL BAGS OF STYLE

KEY FEATURE Panelled island unit →

In keeping with Brett's bright, breezy style, her kitchen is a modern take on a timeless design staple. At its heart is the peninsular island, a highly practical piece of cabinetry that gains extra strength from being attached to the wall. To create a similar look, contact a supplier that specialises in bespoke projects – look for one at findacraftsman.com. Alternatively, check out British Standard by Plain English (britishstandardcupboards.co.uk), which has panelled cabinet doors like the ones seen here, from £410 for a floor cupboard and from £77 for a wide end panel, plus plenty of inspiration for island units.

KEY SURFACES
