## THE ENGLISH HOME SELECTS

The English Home team visited the world-renowned annual interiors showcase Decorex International to view the latest launches in interior design. Here are some of our favourite finds.

An exciting collaboration between fabric house Zoffany and Alternative Flooring has resulted in a range of enticing patterned carpets. The five printed, hand-tufted designs come in 16 colourways. We particularly like Crackle [above]. From £59 a sq m, minimum order 25 sq m

Parker & Jules, the new fabric and wallpaper design studio launched in January by Nancy Parker and Juliet O'Carroll, is already making waves with its distinctive fresh, bold, yet softly contemporary, takes on print. Fabrics from £99 a metre

Here, beech wood found on the forest floor has been turned to showcase its beautiful wood grain. This elegant Cupola chandelier is just one example of the sustainable pieces from Tamasine Osher Design, £POA

Hunt & Hope aims to broaden the allure of made-to-order, hand-stitched needlepoint upholstery by adding a contemporary mood to it. Sixteen crisp designs come in over 420 shades of wool. Shown here: Barbuda Bolster in Green/Cream, £620. Fabric only: 20p a sq cm/£2,000 a sq m

New from Paolo Moschino for Nicholas Haslam are these showstopping Grecian amphorae, from £840, and ochre-on-linen fabric (from top) Roche, Palmyra and Riviere, £130 a metre
