The broadloom and carpet tile products, constructed in Eco Solution Q Nylon, and manufactured with recycled content.

ALTERNATIVE FLOORING
Daisy by Ashley Hicks

International interior and furniture designer Ashley Hicks has designed two distinct patterned carpets for Alternative Flooring. Chainmail and Daisy each present three timeless colour combinations. Daisy is a vintage tile-like floral, inspired by wall decoration in an old temple in Sri Lanka, while Chainmail is a geometric created in an original, new guise with a palette named after different kinds of chain links.
